

National Accreditation Board for Hospitals & Healthcare Providers

Certification Standards for Emergency Department in Hospitals

Certification Procedure

Introduction to NABH: National Accreditation Board for Hospitals and Healthcare Providers (NABH) is a constituent board of Quality Council of India (QCI) which is established with a vision to be the apex national healthcare accreditation and quality improvement body, functioning at par with global benchmarks. NABH as an organization is accredited by the International Society for Quality (ISQua) and is an institutional member of ISQua and ASQua.

Emergency Certification: The Emergency certification program by NABH was started in the year 2016. The standards provide framework for quality care and patient safety to patients coming to the Emergency department thereby catering to build a culture of safety at all levels. The standards aim at setting expectations for the provision of providing equitable, safe and high-quality emergency care in the country thereby leading to good clinical outcomes.

Benefits of Certification

- ❖ Patients are the biggest beneficiary as implementation of certification standards ensures Patient safety, commitment to quality care resulting in good clinical outcomes in emergency department.
- ❖ Improves patient satisfaction and increases community confidence as services are provided by credentialed medical staff.
- ❖ Certification status provides good marketing advantage in the competitive healthcare.
- ❖ Certification in a hospital will stimulate a journey towards continuous improvement in the Emergency department and standardization of clinical protocols

Who can apply?

Hospitals having minimum of 25 operational beds, in addition to emergency beds. Emergency Department that fulfills the following requirements:

- ❖ Currently in operation as Emergency Department
- ❖ Hospital should have implemented NABH standards for a minimum of three months.
- ❖ The organization that commits to comply with NABH standards and applicable legal/statutory/ regulatory requirements.
